~~SECRET~~ Comments.

- (1) The report indicates that the units of the 39th Gds Mtz Rifle Div, which are stationed in Saalfeld, were at the post in mid-November 1950. Although the estimate of 4,000 troops seems too high, it strengthens the previous assumption that two regiments of the 39th Gds Mtz Rifle Div, namely the 120th Gds Mtz Rifle Regt and the 15th (Gds?) Tank SP Regt, are stationed in Saalfeld.
- (2) Major Rudin, (fnu), reportedly the commanding officer of the infantry units, is unknown. [redacted] Gds Colonel Dimitrov, (fnu), as the commanding officer of the 120th Gds Mtz Rifle Regt in late October 1949. [redacted]
- (3) Colonel Pauluk, (fnu), reported to be the commanding officer of the tank units, was identified [redacted] as the commanding officer of a tank battalion, presumably of the 15th (Gds?) Tank SP Regt, which was at Ohrdruf on 1 June; and as the commanding officer of a tank unit in Saalfeld on 20 October. [redacted]
- (4) The number of tanks and SP guns observed indicates that the entire regiment is stationed in Saalfeld.
- (5) Troops practicing the construction of field fortifications were also observed at other military post, such as Potsdam and Jessau-Rosslau.
- (6) Major Mishak, (fnu), is unknown. However, the information confirms the subordination of the units in Saalfeld to the Hq 39th Gds Mtz Rifle Div in Rudolstadt.
- (7) The ammunition dump at Schwarza is known from previous reports.
